JIGISHA GHANEKAR

4th Year Computer Science Engineering Student

ABOUT ME

Hey there! I'm Jigisha, a curious and driven Computer Science enthusiast eager to explore new tech horizons. I am growing as an engineer in Atharva College of Engineering. I love learning new things and staying busy, whether it's working on something I'm passionate about or improving my skills.

FREE LANCING PROJECTS

COMPANY NAME : JP CUT & WELD
Integrated a cohesive MERN-based E-Commerce platform equipped with product catalogue display, informative company profile and a flexible contact system to evolve business needs and cutomer demands.
Github Link: <https://github.com/Jigisha15/JP-Cut-n-Weld>

COMPANY NAME : ANSH ACADEMY
Created a dynamic MERN-based platform designed to inspire and empower women, offering a seamless experience for booking yoga classes, completing registration forms, and exploring visually engaging content that showcases the instructor's expertise and passion for yoga.
Github Link: <https://github.com/Jigisha15/yoga-with-prachi>

PROJECTS

MARG DARSHAN
Tech Stack : MERN, Flask, Django
Developed a comprehensive MERN and Flask AI-powered career guidance platform that leverages personalized questionnaire, intelligent chatbot, and tailored resume templates to deliver actionable insights and streamline the career exploration process.

DENTAL CLINIC MANAGEMENT
Tech Stack : Django, SQLite server, Bootstrap
Developed a comprehensive Django-based web application that streamlines dental clinic management by providing patients with convenient appointment scheduling, location information, and contact options, while offering administrators efficient appointment management and clinic oversight.

EMERGENCY MODULE
Tech Stack : MERN
Collaborated with a dedicated team to develop a transformative community safety app that empowers individuals to report emergencies, share vital information, and receive timely assistance, fostering a safer and more connected community.

BLOG WEBSITE
Tech Stack : Flask
Developed a dynamic Flask-based blogging platform that incorporates user authentication, robust database management, and intuitive features to foster community engagement and content creation.

KOKAN KINARA
Tech Stack : MERN
Created a customizable ReactJS-based food ordering app that showcases the unique flavors of Kokni cuisine, offering personalized menus, convenient ordering options, and a visually appealing interface to enhance customer engagement.
